Trennwandsysteme

Stylish and elegant partitioning.

BEFORE WE  
EXPECT TRUST FROM  
OUR CUSTOMERS,  
WE PROVIDE EVIDENCE  
*that's us!*

## ENVIRONMENT & SUSTAINABILITY *that's us!*

Sustainable management and careful use of resources are a matter of course for us and part of our corporate philosophy. This basic idea is consistently integrated and lived in our work processes. We are proud to be the first certified manufacturer of partition systems and lockers in Germany to operate according to the FSC™ and PEFC guidelines.

### PEFC - registered

We pay attention to a sustainable supply chain in which our products are procured under ecological, economic and socially just aspects.

### FSC™ - certified

As the first certified manufacturer in the area of partition systems and lockers in Germany, we make an active contribution to the protection of our earth with this future-oriented procurement method. We supply almost our entire range from sustainable wood in accordance with the specifications of the FSC™.

On request  
the products are  
available with  
FSC™ certification

## TÜV NORD GS TESTED SAFETY *that's us!*

Tested and certified by TÜV NORD these products meet the requirements of the Product Safety Act ProdSG § 21  
Registration No. 44 329 14148813.

## MADE IN GERMANY *that's us!*

Our products are manufactured for you at the company site in Horhausen, Rhineland-Palatinate. This is the only way we can guarantee the high quality standards we set for our products.

## PREQUALIFIED *that's us!*

We are registered in the list of prequalified construction companies with the number 010.049740, proving that we are qualified for the products and services we offer.

## INNOVATIVE & DESIGN-ORIENTED *that's us!*

With our design-oriented and innovative products, we convince not only our customers, but also national and international committees.

## Design- und function-oriented

The GVKF13 locker units are an attractive solution when a uniform and continuous front is desired. Thanks to a special front profile, the locker units in this series have a complete flush surface. The result is a calm and extremely harmonious look. The combination of different colours sets design accents. Thanks to the variable locker body construction, the locker dimensions and layouts can be perfectly matched to the requirements of the respective building project. The areas of application of the robust and durable GVKF13 cloakroom lockers are versatile and are perfectly suited, for example, for swimming pools, schools, fitness studios, staff areas in office buildings and production facilities, in the hotel industry and wherever clothing needs to be stored cleanly and safely.
